

## **Stakeholder Meeting & Workshop**

### **"Development of Organic Electronics Industry in Greece - I"**

**Thessaloniki, Greece at 21 November 2011**

The Stakeholder Meeting is realized in the framework of the European Project ROleMak "Reinforce Organic Electronics Research Potential in Kentriki Makedonia" (FP7-REGPOT-2011-1) that is coordinated by the Physics Department of the Aristotle University of Thessaloniki, Greece ( <http://www.rolemak.eu> ).

The target of the Stakeholder Meeting is the formation of strategy and a policy for Organic Electronics (OE) in Greece and the creation of the OE Industry with the participation of scientists, engineers, industrial partners, final users, and representatives from regional and national authorities.

The subjects that will be discussed include the information for these activities as well as the prospects for their exploitation through entrepreneurial activities with the final target their commercial exploitation.
